Summary

I'm a 21 year old student from Turkey who has been very familiar with computers since early 2000s. Many fields of computer science and information technologies stimulate my interest. I'm fast and eager to learn new technologies. I also do programming for fun as well as doing it seriously.

Education

Helsinki Metropolia UAS – School of ICT (Erasmus+ Exchange)	August 2017 – December 2017
Bilkent University – Computer Technology and Information Systems	2015-2019
Hacettepe University - School of Foreign Languages, German Preparation Class – B1 Level	2014-2015
TED Ankara College Foundation Private High School	2010-2014

Experience

JotForm – Software Engineering Intern

1 June 2017 – 7 July 2017

Answered support tickets.

Learned about composer package manager, slim framework, PHPUnit, RESTful API development, npm package manager, ES6, react and redux.

Developed a widget and prepared an ES6 boilerplate for widget developers as projects.

My Own Game Server

June 2012 - October 2014

I owned and ran a game server which was called MCR, professionally for 2 years. I do not run the server anymore, I might be involved in game projects in the future again. The game is called "Minecraft"

This provided me minor experience about e-commerce and administering a busy server.
